### DETAILED ACTION

1. Claims 1-13 are in the application.

#### *Claim Objections*

2. Claims 4-9, 12 and 13 are objected to because of the following informalities: The use of the term “pipe-like” is objected to, a more specific term should be used. Appropriate correction is required.

#### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Parkins et al.

Parkins et al discloses a device to be secured to a submersible portion of a boat lift including at least one rigid piece 17 secured to the submersible portion 16 of the boat lift generally parallel to the water surface and in proximity to a piling supporting the boat lift. Figure 5 shows that the rigid piece 17 would interact with pilings 11 in the event of unwanted lateral movement of the lift 16.

5. A claim more specific to the arrangement in figure 1 will receive favorable consideration.
